

~~CONFIDENTIAL~~

12 October 1973

MEMORANDUM FOR: Mr. Colby

SUBJECT : Request for Meeting with DCI by
Dr. Sorrels, ASD(I)

1. Dr. Sorrels has requested a meeting with you to discuss the progress made in the intelligence community on recommendations in the OMB Staff Study Report on collection, analysis and distribution of data on ICBMs and ABMs which was authored by him in October 1972. Dr. Sorrels is no longer with OMB. He is now on the ASD(I) staff working in other areas, but apparently has a continuing interest in his report.

2. The Program Evaluation Group of the Intelligence Community Staff has taken the responsibility to insure that the appropriate actions are taken by the community in response to Dr. Sorrels' report. PEG can brief you on the progress to date at your convenience and would be interested in any new insights which Dr. Sorrels might have.
